

Product:	InvisiFreeze™ L (GN2/1)
Manufacturer:	Gastros Switzerland AG
Category:	Undercounter Cooling Device
Image:	
Tender-Text:	InvisiFreeze™ L Undercounter cooling unit with external control unit for installation under various surfaces such as glass or artificial stone, analogue and suitable for the InductWarm® 130+ Undercounter Warming Unit. The device cools the surface on four selectable cooling levels: Cool (cold surface), Chill, Cold and Freeze (ice layer). The InvisiFreeze™ will be operated via an external control unit (article number: 6 60 500 01). Up to 16 devices can be daisy-changed via a BUS cable and operated synchronous with just one panel (all devices on the same cooling level). The built-in USB interface allows software updates as well as the reading of operating data for remote diagnostics. The current operating status and the cooling-levels are indicated by four LEDs. The appropriate surface panel can be selected individually and to match the customer's design wishes, and Gastros will be happy to make recommendations. The InvisiFreeze™ must be bonded to the surface material with an adhesive supplied.
